### Shot by Accidental

#### Discharge of Gun

Because he didn't know that his 22 calibre rifle was loaded when he took it down and carried it to some blankets he was carrying, Manuel Portugal of Phoenix was accidentally shot in the left side a few inches below the heart, shortly after seven o'clock Monday evening. Just how serious the wound could not be determined by Dr H K Beauchamp and Dr L D Dameron, who were called to attend to the man after he had been brought to the police station in the patrol wagon.

The bullet seems to have entered the abdominal cavity, but whether it took an upward or downward course probing failed to reveal.

The gun barrel was wrapped in the blankets, and as Portugal was walking along the railroad tracks just south of the Star lodging house, it slipped from its covering, striking on the injector and discharging a shell that remained in the chamber. For an instant Portugal was stunned, and then he grabbed the barrel and struck it across one of the rails, bending it.

Portugal had not been drinking, and stated that he had considered that in taking down the gun and wrapping it carefully in the blankets, he had taken more than ordinary precautions.

### Cost of Ninth Arizona State Fair

R-twee, \$68,000 and \$70,000 was the cost of the ninth Arizona fair.

The paid admissions totaled about \$30,000, as against \$22,000 last year. Complete figures on the cost of the fair, the admissions and the receipts from all other sources will be available in a few days. They are being prepared by Secretary C B Wood and the members of the commission.

From the state the fair received \$25,000. Between \$4000 and \$5000 was received for concessions, the increase being nearly \$2000 over last year. Entrance fees and other revenues will bring the total up to more than the fair cost.

Included in the estimate of \$68,000 to \$70,000 is the cost of various improvements. Another important item in the cost of the fair is the parade, which totaled \$29,100.

"The fair grew at an astonishing rate," Commissioner J J Keegan said. "We simply must have more ground, and we must have it by next year if possible. If we do not have it, and also more space in the exhibit building, I do not know what we are going to do. This year we had to increase our stall space 50 per cent."

### Fire Causes

#### Great Excitement

A thrilling half hour was experienced in Brewery Gulch at Bisbee Sunday evening just after 8:25, when fire burst from the roof of the Toveira & Co meat market building, between the Hermitage and the Medigovich building.

At the time of the breaking out of the fire there were some thousands of dollars in the buildings. Immediately threatened, accumulated in the hours following closing of the banks Saturday. The Medigovich building contained a large amount as did also the Hermitage where there was more than \$1,500. Ernest Garcia, on duty behind the bar, immediately emptied the cash register and then prepared to break into the front office and save the larger amount of money in the house, the office being closed in the absence of Manager French at his meal. In the Toveira Market the flames were prevented from entering the cash register or safe. Not a cent was lost in cash. Damage to the cold storage in that part of the building where the fire was uncounted to about \$2,000, mostly covered by insurance.

### Doings in the

#### Superior Court

MONDAY

In the superior court today the case of Raymond Henderson, charged with seduction, was called for trial, the jury reporting at 9 o'clock. The case was postponed, however, until tomorrow, when the defendant will enter his plea, and the trial will proceed.

There was one divorce case on the docket today: Bilda Stevens vs John Stevens, judgment was entered for the plaintiff.

The sheriff returned into court this morning a special venire of ten jurors ordered Saturday, as follows:—  
M W Bestwick W L Smith  
Chris Dillman W W Benson  
W E Moore Chris Potbaat  
Harry Zeisemer Wm Sil man  
E B Bedow Henry Poppen

TUESDAY

The State vs Raymond Henderson, charged with seduction was the only case which occupied the attention of the superior court today, and the trial is still on as we go to press.

The entire morning was consumed in the selection of a jury and the case started after the noon recess. There are many witnesses to be examined and up to 3:30 there had been but about half of the number put on the stand.

It is expected that the case besides consuming the whole day today will take most of tomorrow in the introduction of the evidence and arguments by counsel for both sides.

Attorney J M Ross appears for the defendant while Assistant County Attorney Murry is for the state.

The following is the jury trying the case,

W T Smith C M Corry  
F A Davis L A Holle  
Henry Poppen Harry Zeisemer  
W Cummings Sam H Smith  
W A Harwood W E Landers  
J Sessions F N Goodman

The following divorce cases were passed upon:

There were many witnesses in the case to be examined and several times during the progress of the trial heated arguments by counsel ensued as to certain legal points.

It is expected that there will be another criminal case up for trial tomorrow, there being quite a number set for the week among which is one murder case.

### Cattle Smuggler

#### Tried at Phoenix

A hung jury was the result of the trial of V A Young, of Douglas in the United States court at Phoenix last week. This trial occupied the time of the court during Friday and Saturday Judge D A Richardson appearing for the defendant, Judge Richardson stated that he was informed that the trial jury stood eight for acquittal of his client, while four stood for conviction. Mr Young returned home with his attorney, having continued his bond for appearance when wanted for a second trial. Young was tried on an indictment which charged him with smuggling cattle from Mexico, or being implicated in smuggling. He purchased cattle brought over the line by Jack Gattlin, and it was on the evidence of Gattlin that the government relied for conviction, he telling the court and jury that he had an arrangement with Young to bring cattle across the line without the payment of duty. This Young denies. It is not known when the next trial will be called, but it will probably be during the present term of court.

After admission to the supreme court of the state, the case appeared before Judge Sawtelle, armed with their credentials, and on motion were admitted to practice in the United States court.

It now develops that the four "amigos," who were met at the train from Nogales Sunday night by Enrique V Anaya and who were hastily spirited away were none other than General Luis Blanco; of Tamaulipas; General Ernest Santos Coy, of San Luis Potosi and his aide Major Chas. Domiguez; and Representative Basco Raaquillo of Chihuahua.

### Hardy Appointed

#### Collector of Customs

A Washington dispatch says:—

President Wilson today sent to the senate the nomination of Charles E Hardy to be collector of customs for the district of Arizona, with headquarters at the Nogales port of entry. Wilson also nominated Dudley Field Malone to be collector for the district of New York, vice John Furroy Mitchell, who resigned to run for mayor.

The appointment of Captain Hardy as collector at Nogales, vice Con O'Keefe, whose resignation was requested some time ago, does not come as a surprise to Arizona people who have kept in touch with political conditions. Captain Hardy is an old-time Virginia democrat, who has resided in Arizona for nearly twenty years, and who in all that time, has always been prominently connected with the affairs of the democratic party. He has resided in Tucson continuously since becoming a citizen of Arizona.

Captain Hardy has two sons. The Elder, Leslie C Hardy is assistant to Attorney-General Bullard, while the younger, Chas E, Jr, is assistant chief clerk of the lower house of the last legislature.—Democrat.

### Name Receiver

#### For Trust Company

A Flagstaff dispatch says:—

J F Mathews of Holbrook, has been appointed receiver for the Rancher's Trust company. The appointment was made by Superior Judge Perkins in an action commenced against the company and its agents by the firm of Sloan, Seabury & Westervelt, who represent 63 persons who bought Rancher's Trust stock. Mathews is acceptable to them.

Agents for the Rancher's Trust company traveled through the northern part of the state, making glittering representations to wealthy cattlemen and sheepmen. Every one who purchased stock was to get money at 7 per cent and was to be a member of the concern's loan company at \$7 a day. Moreover, the company was to make such enormous profits that they would probably never have to pay the notes they gave for stock. Most of the notes were hypothecated as soon as they were taken and several of the agents have left for parts unknown.

It is understood that when the receiver winds up the company's affairs those who paid cash for stock will receive only a small part of their money back.
